**Space Systems Command to host Media Roundtable focused on  
Assured Access to Space & Space Mobility  
Jan. 31 at 10 a.m. EST**

**EL SEGUNDO, Calif.** - Space Systems Command (SSC) will host a media roundtable focused on Assured Access to Space and Space Mobility on Wednesday, Jan. 31 at 10a.m. ET at the Orange County Convention Center in Orlando, Florida. The roundtable follows SSC and the U.S. Space Force's co-sponsored [Space Mobility Conference](#), which takes place on Jan. 30 as part of [SpaceCom](#), the global commercial space conference and exposition.

Brig. Gen. Kristin Panzenhagen, SSC Program Executive Officer for Assured Access to Space, along with members of her leadership team, will share information and respond to media questions concerning the current and future state of space mobility and logistics, including:

- Priorities and goals for fiscal year and calendar year 2024 as they relate to space mobility and logistics.
- Key advances in space mobility and logistics, including access and on-orbit capabilities.
- Emerging capabilities in on-orbit- servicing and refueling.
- Emerging capabilities in point-to-point delivery from or through space.
- Spaceport resiliency through global partnership.

In addition to leading SSC's Assured Access to Space, Brig. Gen. Panzenhagen serves as SSC's director of Launch and Range Operations, commander of Space Launch Delta 45, and director of the Eastern Range.

Interested media representatives must RSVP by sending an email to [sscpa.media@spaceforce.mil](mailto:sscpa.media@spaceforce.mil) no later than 3 p.m. EST, Jan. 30. A teleconference option will be available for virtual participation and the number will be provided after RSVP. Media are encouraged to submit advance questions to the email address listed above.

**About Space Systems Command**

Space Systems Command is the U.S. Space Force field command responsible for acquiring, developing, and delivering resilient capabilities to protect our nation's strategic advantage in, from, and to space. SSC manages a \$15 billion space acquisition budget for the Department of

Defense and works in partnership with joint forces, industry, government agencies, academic and allied organizations to outpace emerging threats. Our actions today are making the world a better space for tomorrow.
